## Outlook

**Alliance** retains a positive outlook for the 2021 financial year based on the continued demand for its services from an increased client base.

 Alliance's robust and diverse business model has proven to be resilient in these challenging times.

Alliance will continue to monitor the impacts of COVID-19 on the 2021 operational and financial performance.

- Contract revenue is expected to continue to increase in FY2021 as scheduled services for a number of clients will continue at current elevated levels.
  - A number of short term charter clients are also expected to convert to longer term contract clients in the year.
- Contracted wet lease is expected to increase slowly throughout the year. This is largely dependant on COVID-19. Alliance has not forecast any material wet lease income in FY2021.

- The charter sector is forecast to perform strongly. A number of charter clients have confirmed continuing services in FY2021 and a number will convert to long-term contracts.
  Inbound tourism is not forecast to return in FY2021. Domestic tourism services are expected to occur in the second half of the year.
- Aviation services is forecast to contribute at similar levels as FY2020. Alliance will continue to focus on extracting maximum value from its large inventory holding.
- 14 Embraer E190 jets will be delivered to Alliance in FY2021. These will be funded from a combination of the capital raising and working capital. Alliance's focus is on ensuring these aircraft generate a return to shareholders in as short a time as possible. Due to this sizable growth project, the Board of Directors have decided not to declare a dividend for FY2020.
